THE PHONE

Most of us will spend two years of our lives on the telephone. They are not likely to be the best two years. Your phone rings. You pick it up, say *"hello,"* and a gruff voice barks, *"who's this?"*

You place a call.

Someone on the other end of the line answers, *"one moment please"* — and you sit there — three minutes before anything else happens.

You try to call Jones.

His office asks, *"May I tell him who's calling?"* before they'll admit he's in.

Another irritant: *"What is this in reference to?"* You might break that logjam by saying it's about his wife's gambling debts.

Maybe the all-time crusher, is when you answer your phone to be told Mr. Smith is calling and will be right with you. Then you sit there, seething, for another three minutes before Smith comes on. The telephone is one of life's miracles.

With a little thoughtfulness, we could make it one of life's blessings. Worth trying, isn't it?
